PROFESSIONAL SUMMARY

BCSIT student at Apollo International College (Pokhara University) with hands-on experience building full-stack web applications. Proficient in PHP, Laravel, JavaScript, React, Node.js, Python, Django, MySQL, and MongoDB. Comfortable working across the entire development cycle, from database design to front-end implementation. Actively seeking freelance opportunities to apply and expand practical development skills.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, PHP, Python

Frameworks & Libraries: React, Node.js, Laravel, Django

Databases: MySQL, MongoDB

Tools & Concepts: Git, GitHub, Responsive Design, MVC Architecture, RESTful APIs

PROJECTS

College Management System | PHP, Laravel, MySQL

- Web-based system to manage student records, attendance tracking, and academic data.
- Built admin dashboard with structured backend logic and clean UI for improved usability.
- Focused on scalable architecture, MVC patterns, and maintainable code practices.

Dynamic Recipe Web Application | PHP, JavaScript, MySQL

- Interactive web app for browsing and managing recipes with dynamic content rendering.
- Implemented responsive design to ensure cross-device compatibility.
- Optimized database queries to improve overall application performance.

EXPERIENCE

Personal Projects & Continuous Learning

2024 – Present

- Developed multiple real-world web applications to strengthen full-stack development skills.
- Practiced version control and collaborative workflows using Git and GitHub.
- Improved debugging, problem-solving, and system design abilities through independent projects.

EDUCATION

Bachelor of Computer Systems and Information Technology (BCSIT)

Apollo International College, Pokhara University | 2024 – Present
